DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 17-22,24-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In particular, the phrase "sequence specific" is vague, and does not clearly set forth Applicant's invention. Correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17-22, 24-26 are rejected (to the extent understood) under 35 USC 102(b) as being fully met by Kikuchi (USP 6088733).

Kikuchi discloses the communications of MIDI and other data, which comprises first decoding means 302, second decoding means 303, wherein the control data is encoded as an encoded data string in a predetermined event in standard MIDI format. See Fig. 3.

Applicant argues that Kikuchi does not disclose a predetermined event that is user defined. However, this control data is MIDI format performance data, which is by definition "user defined" in that a user creates, or defines, the performance data.

Applicant argues that Kikuchi does not disclose a predetermined event that is 'sequence specific.' However, MIDI format performance data is by definition 'sequence specific' in that each event is one in a sequence of events.
